O.M. No. 2328 III dated 16.8.26
7/26-1

During the course of an interview granted by His Excellency the Governor to Mr. Naganna Hegde, M.L.C., in Madras, the necessity for opening an agricultural farm in the South Kanara District was urged. The D.A. is requested to report at a very early date whether he proposes to open agricultural farms in South Kanara or other districts in the near future.

Station Madras , *Dated the* 19th August 1926.

From (Name) Rudolph D. Anstead Esq., M.A.,
(Designation) Director of Agriculture, Madras.

To The Secretary to the Government of Madras,
Development Department.

Sir,

With reference to Government Memorandum No. 2328-III/26-1 dated the 16th August 1926, I have the honour to offer the following remarks:--

p. 1 ante

2. There is, at present, no idea of opening a farm in South Kanara. There is already an Experiment Station at Taliparamba and we are just opening a paddy breeding station at Pattambi which will -- serve the needs of both Malabar and South Kanara as far as paddy is concerned, so that the necessity for a farm in South Kanara is not really pressing.

p. 05. put up in another file
vide A. at p. 2 M

3. When money is available for opening new farms, the claims of other districts are more pressing than those of South Kanara. For example, there is no Government -- Experiment Station in the V[x] Circle beyond the paddy breeding station at Adutturai which is designed primarily to supply the needs of the Tanjore delta. There is also a long standing demand for an Experiment Station in the Salem district, and I am of the opinion that these -- demands should be met, and possibly others, before we consider the opening of a Station in South Kanara.

[x] Tanjore District with headquarters at Trichy.

re Salem
This is also taken up in another file

4. At the same time, it is gratifying to find that there is this demand for Experiment Stations as it shows that the efforts of the Department are meeting with appreciation, and I, therefore, trust that Government will be able, in the near future, to provide funds for opening more Experiment Stations in districts in needs of them.

I have the honour to be,

S i r,

Your most obedient servant,

M. V. Vellodi

for Director of Agriculture.

GOVERNMENT HOUSE.
Cotacamund,
30th July 1926.

Dear Mr.Panduranga Rao,

I am to let you know that in the course of an interview granted by His Excellency to Mr. Naganna Hegde,M.L.C., in Madras Mr.Hegde urged upon His Excellency the necessity for opening an agricultural farm in the South Kanara district. His Excellency listened to Mr.Hegde's representations and promised to bear them in mind. I am to communicate the above to you for your information. His Excellency would however like to know whether the Department has any proposal to open any more agricultural farms in the immediate future and if so in what districts.

Yours sincerely,

V.Panduranga Rao Esq.,I.C.S.;
Secretary to Government,Development Dept.

Dev. Dept.

To Asst. Secy.

Please see the P.S.G's D.O. at page 1 supra.

2. Attention is solicited to the papers in (S) G.O. No.1257, dated 11-7-25, which show the places wherein it is proposed to open agricultural stations. The opening of more farms is largely a question of money and staff.

3. As regards the opening of farms in South Kanara, reference is solicited to para.3 of the (L) Board's reference on page 8 of G.O. No.2743, dated 13-9-13, from which it will be seen that the Board of Revenue informed the Collector, South Kanara, that it would not be possible to open a farm in that district. Orders have been issued for opening a farm in Malabar and it will be seen from the portion marked A in para.5 of the D.A's letter (P) A at page 3 of G.O. No.1073, dated 30-7-23, that the Malabar station would serve the requirements of the South Kanara also.

~~The case may be sent over to Dist. Forests~~

Park 13.8.26 work for the opening of a paddy farm in Malabar and a hyacam station in Anakapalle in Vizagapatam is in progress. If funds are available in 1926-27 and 1927-28, the needs of Ganjam and Bellary, by have item 11 on p. 15 of No 362 d 12-3-26 (H) (S) to be met - vide A at p. 15 of No. 1257 mis. dt 11-7-25; We are also committed to a millet station in the Ceded Dts which will have become in 1926-27. or 1928-29.

vide p 11 of G.O. 166 (D) 2-2-26

Side by side with the opening of these new stations

we have to find funds for conversion of the experimental Stations at Hegana, Nandyal and Guntur into Cotton breeding Sub Stations and for the opening of Subsidiary Paddy breeding Stations in connection with the main Stations at Coimbatore and Aduthurai (Tanjore).

Items 9 and 12 at p 15 of H. (H) (Vide pr. 15 of G.O.No. 362 Dev, d 12-3-1926).

It is only after these projected Schemes have been sanctioned, that we be in position to take up other Dts.

The file may be submitted to P.S.G.
